

BELVEDERE HOTEL MYKONOS UNVEILS EXCLUSIVE NEW SWIMMING POOL AT HILLTOP SUITES WITH EXPANSIVE VIEWS OF THE CYCLADIC LANDSCAPE

Perched atop a scenic hill, the new pool presents a 180-degree view of Mykonos's main town Chora and the Aegean Sea from sunrise to sunset.

April 3, 2024 (Mykonos, Greece) – **Belvedere Hotel in Mykonos**, Greece, a treasured member of *The Leading Hotels of the World*, unveils a luxurious new addition to its **Hilltop Rooms & Suites** minutes away from the main hotel complex – a brand-new rectangle-shaped swimming pool with panoramic views of Mykonos Town, the historic windmills, and the azure sea. The latest addition now completes a full offering at Hilltop, becoming a sanctuary of tranquility, embodying the intimacy, and privacy of a residential precinct. Reserved solely for its Hilltop residents, the swimming pool fosters an atmosphere reminiscent of a members' club, where guests enjoy a private escape with supreme personal service, enveloped in the seclusion of the idyllic Mykonian scenery.

Belvedere is a family-owned luxury boutique hotel known for its prestige hospitality experience, five-star facilities, and breathtaking, immersive view of Mykonos's main town Chora and the Aegean Sea, while its name pays tribute to these magnificent vistas. This authentically Mediterranean residence is an oasis of wonders, merging consciously with the city's eminent architectural landscape and identity. Built on the legacy of an 1850s stately home, *Mansion Stoupa*, the hotel has risen around it like a Cycladic neighborhood. The mansion started welcoming guests in 1969 and has evolved into the Belvedere Hotel since, leaving its lush and flamboyant gardens untouched. Elegantly shifting through the decades, the hotel has transformed into a superb social and hospitable experience, setting out to capture a nostalgic glance in pursuit of the elusive Mykonos feeling. With its main complex featuring the bright sapphire Pool Club, a signature cocktail bar Sunken Watermelon, a peaceful Six Senses Spa and Chef Nobu Matsuhisa's first open-air restaurant, Matsuhisa Mykonos, Belvedere boasts more additions in its proximity, including **Hilltop Rooms & Suites**, The Waterfront Villa & Suites and Villa Next Door & Suites.

The newest addition at Hilltop conveys sheltered poolside charm, enhancing the offering of this more residential complex. The swimming pool, crowned with fragrant, lush greenery significant for the Hotel amid the Mykonian neutrals, complements the iconic Pool Club at the main complex, dressed in sun loungers and spherical chairs with a significant blue and yellow décor for utmost relaxation with epic views of the celebrated skyline. Offering a sanctuary for relaxation with every detail meticulously crafted, the newly inaugurated area delights guests to revel in the beauty of Mykonos beneath the warm Mediterranean sun.

'The recent addition represents Belvedere's ongoing dedication to offering our guests an unparalleled stay that combines luxury, comfort, and the breathtaking beauty of Mykonos. By elevating the privacy aspect of the complex, we create a new place of enjoyment and relaxation exclusive to Hilltop residents as the new swimming pool,' explains Nikolas Ioannidis, the co-owner of Belvedere.

Nestled 250 meters from the central complex of the Hotel perched atop a hill overlooking Mykonos town, **26 Hilltop Rooms and Suites**, were designed by Belvedere's very own Domna Ioannidis from Conceptboarding Architectural Studio. With three whitewashed houses beckoning the distinguishable Cycladic design, Hilltop redefines the concept of elevated hospitality with the aura of a residential complex, providing the guests with additional privacy to enjoy the exclusivity and serenity that come with private pools, jacuzzies and terraces in each suite. Merging Mykonian design and minimalism, each Suite averages between 30 – 50 square meters, highlighting Belvedere's architectural signature with white-washed spaces, curved walls, and natural tones, complementing the feeling of serenity and calmness. As an ode to the hotel's legendary seascape, each suite offers immaculate vistas over the Aegean Sea and Mykonos town, epitomizing the perfect blend of proximity to Mykonos' vibrant heartbeat and the tranquility of private living.

Extended stays have recently been launched at the **Hilltop Rooms and Suites** as an additional offering to accommodate more tailored needs of its loyal guests, looking to spend significantly more time in privacy and

comfort, but within the reach of the main complex's sociable life and the genuine sense of community it is known for. By providing an immersive experience that goes beyond the ordinary hospitality offering, Hilltop becomes a residential, tranquil sanctuary secluded from city life, complemented with all the benefits and facilities of a luxury hotel experience.
